

### AEOLUS RADIAL OFF-THE-ROAD LIMITED WARRANTY

Every Aeolus radial off-the-road tire sold by Dynamic Tire Corporation and bearing the Aeolus name is warranted against defects in workmanship and material for the original usable tread depth (original tread depth less 2/32), limited to five years (60 months) from date of manufacture on the tire.

If an examination by Dynamic Tire shows that any such tire became un-serviceable as a result of a workmanship or material related condition, it will, at the option of Dynamic Tire, either be repaired at no charge or a credit will be issued toward the purchase price of a replacement tire. This prorated credit will be determined by multiplying the original purchase price of the tire by the percentage of usable tread depth\* remaining on the tire and is not to exceed the maximum age based credit shown in the chart below. Costs of mounting, filling, and any other service charges or applicable taxes are payable by the customer.

#### WHAT IS NOT COVERED

- Tires purchased as seconds, mark downs, or used;
- Tires exhibiting field or road hazards including cuts, punctures, impact breaks and stubble damage;
- Failures due to improper mounting procedures;
- Failures due to overloading or use at speeds in excess of the maximum recommended speed;
- Tires that have been run under inflated or over inflated;
- Tires mounted on rims which are not recommended by the Tire & Rim Association;
- Uneven or rapid wear due to mechanical irregularity of the vehicle;
- Damage resulting from fire, accidents, chemical corrosion or vandalism;
- Weather cracking or ozone damage on tires more than four years old;
- Tires that have been used in applications other than the application for which the tire was designed;
- Incidental or consequential damages

#### NOTES:

\*Usable tread depth divided by original tread depth equals percentage of adjustment. Dynamic Tire shall not be liable for any other warranty or representation of any kind, expressed or implied, without Dynamic Tire's prior written agreement.
